

MERRI VIT AD3E (80/40/20)

Complementary feed, sterile product (E. Ph.) of a high quality

Composition: 100 ml of the product contains:

Dietary additive – vitamins: 8 000 000 I.U. vitamin A (retinyl palmitate)
 4 000 000 I.U. vitamin D3 (chole-calciferol)
 2 g vitamin E (α- tocopherol)

Technological additives – Emulsifiers: 91,2 g

Preservatives: 2 g

Properties:

The product is a long-life sterile vitamin solution belonging to the AD3E group. Vitamin A maintains the integrity of cell membranes and the lack of Vitamin A leads to keratosis epitheliums of the digestive tract, the respiratory system and the reproductive system. Moreover, vitamin A is responsible for rhodopsin synthesis; therefore its deficiency causes night-blindness (visual impairment after dusk). It protects also bone growth through osteoblasts. The action of Vitamin D3 involves regulating and improving the transformation of calcium and phosphorus in the body. The influence of Vitamin D3 on the proper dental and skeleton growth in young animals during the growing season is especially significant. In case of Vitamin E, the most important activity is the influence on the antioxidant processes in the body, which is visible in the case of cell membrane stability, mainly if they include unsaturated fatty acids. The additional role of Vitamin E in the product is the stabilization of Vitamin A.

Indications: Vitamin A, D3 and E deficiency in young animals.

Recommendations for use and Dosage:

The product is administered in drinking water for all animal species in dosage:

- Cattle – 10-20 ml of the product daily per animal;
- Calves, fattening pigs, covered sows and farrowing sows – 5-10 ml of the product daily per animal;
- Piglets, dogs, sheep, goats – 1-2ml of the product daily per animal;
- Poultry – 2,5 ml per 10 liter of drinking water (100 ml of the mixture per 400 liter of water).

Special precautions for storage and transportation: Store below 25°C in a dry and dark place.

Special Precautions For the Disposal of Unused Product or Waste Materials Derived from the Use of Such Products:

Do not empty into drains or with the household waste. The current legal regulations should be observed. This will help protect the environment.

Expiry date and batch number: Manufacture date is batch number as well; Batch number and expiry date are on package.
