

MERRI VIT MINERAL

Complementary feed for cattle, horses, pigs and sheep

Composition: 100 ml of the product contains:

Feed materials: Calcium Gluconate (11.1.13), magnesium hypophosphite (11.3.21), magnesium chloride (11.2.6), potassium chloride (11.5.1), boric acid.

Feed additives: dietary supplements - trace elements (3b): 1.0 g potassium iodide E2, 0.7 mg zinc E6 (in the form of zinc chloride), 30.9 mg iron E1 (in the form of iron sulphate), 4.4 mg cobalt acetate (3b301); technological additives - preservatives (1a): 1 butanol.

Analytical components:

Sodium - 0 g,
Magnesium - 1.3 g,
Phosphorus - 1.6 g,
Calcium - 1.9 g,
Potassium - 0.3g,
Chlorine - 0.1 g,
Lysine - 0 g,
Methionine - 0 g,
Crude protein - 0%,
Crude oils and fats - 0%,
Crude ash - 0%,
crude fiber - 0%.

Media - water (moisture content: 78.3 g).

Properties and action: The preparation is a balanced salt solution, recommended for use in horses, cattle, sheep and pigs in disease states, resulting from deficiency of phosphorus, calcium, potassium, magnesium and trace elements: iodine, zinc and cobalt.

Indications: The preparation is used adjunctively in horses, cattle, sheep and pigs in disease states, resulting from the deficiency of phosphorus, calcium, potassium, magnesium, sodium and trace elements: iodine, zinc and cobalt. It activates enzymes, hormones, vitamins, cellular metabolism, regulates ion composition and osmotic pressure. The product acts as an auxiliary in disorders in the development and functioning of bone tissue, resulting from mineral deficiencies.

Dosage and route of administration: The preparation is used in drinking water in the amount of 1 ml / 5-10 kg bw:

-Cattle, horses: 10 20 ml / animal;

-Calves, sheep, pigs: 5-10 ml / animal.

Administer the solution at room temperature slowly, not in one place above 5 ml.
